

Big 5

[LR Goldberg] The development of markers for the big-five factor structure. *Psychol. assessment* 4, 26 (1992)

50 variables: Answers to 50 questions: on a scale of 1="Disagree" to 5="Agree"

Questions are designed to probe the personality of individuals along five dimensions, that have been suggested as the main traits describing personality.

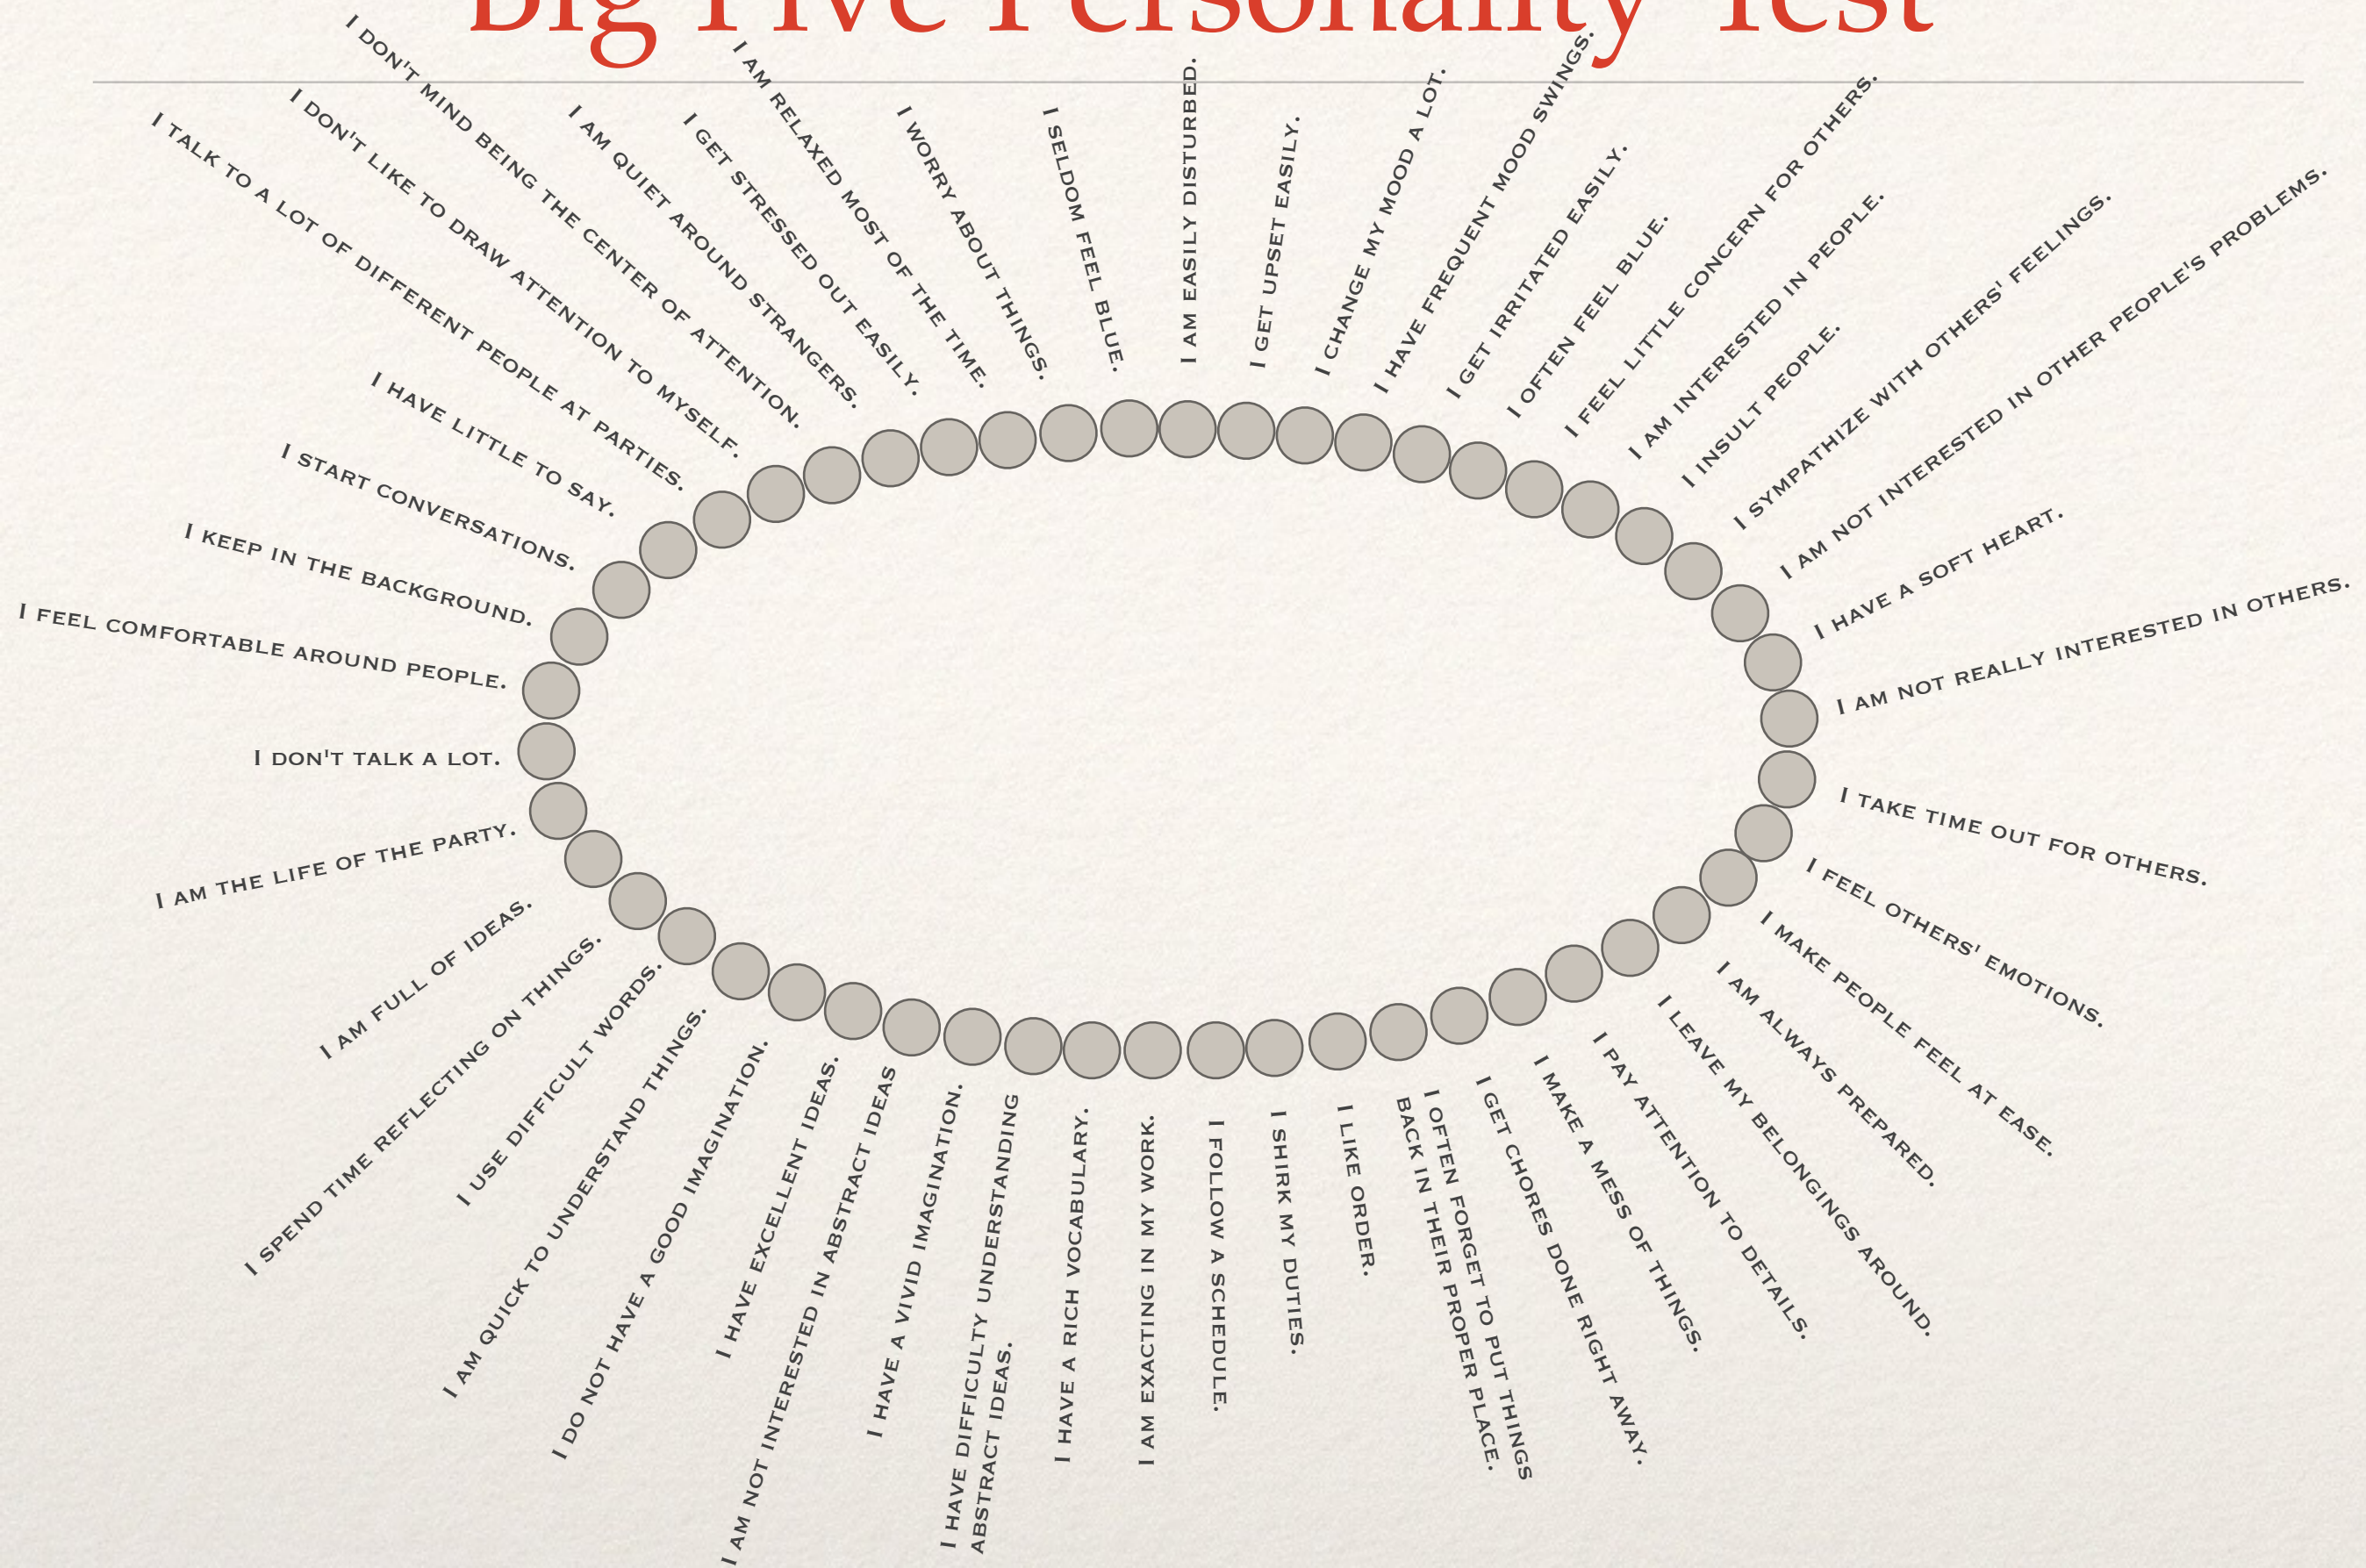

Each trait is evaluated from the answers to ten questions.

Data from: https://openpsychometrics.org/_rawdata/
1,015,342 samples (!)
collected between 2016 and 2018 through an interactive on-line personality test.

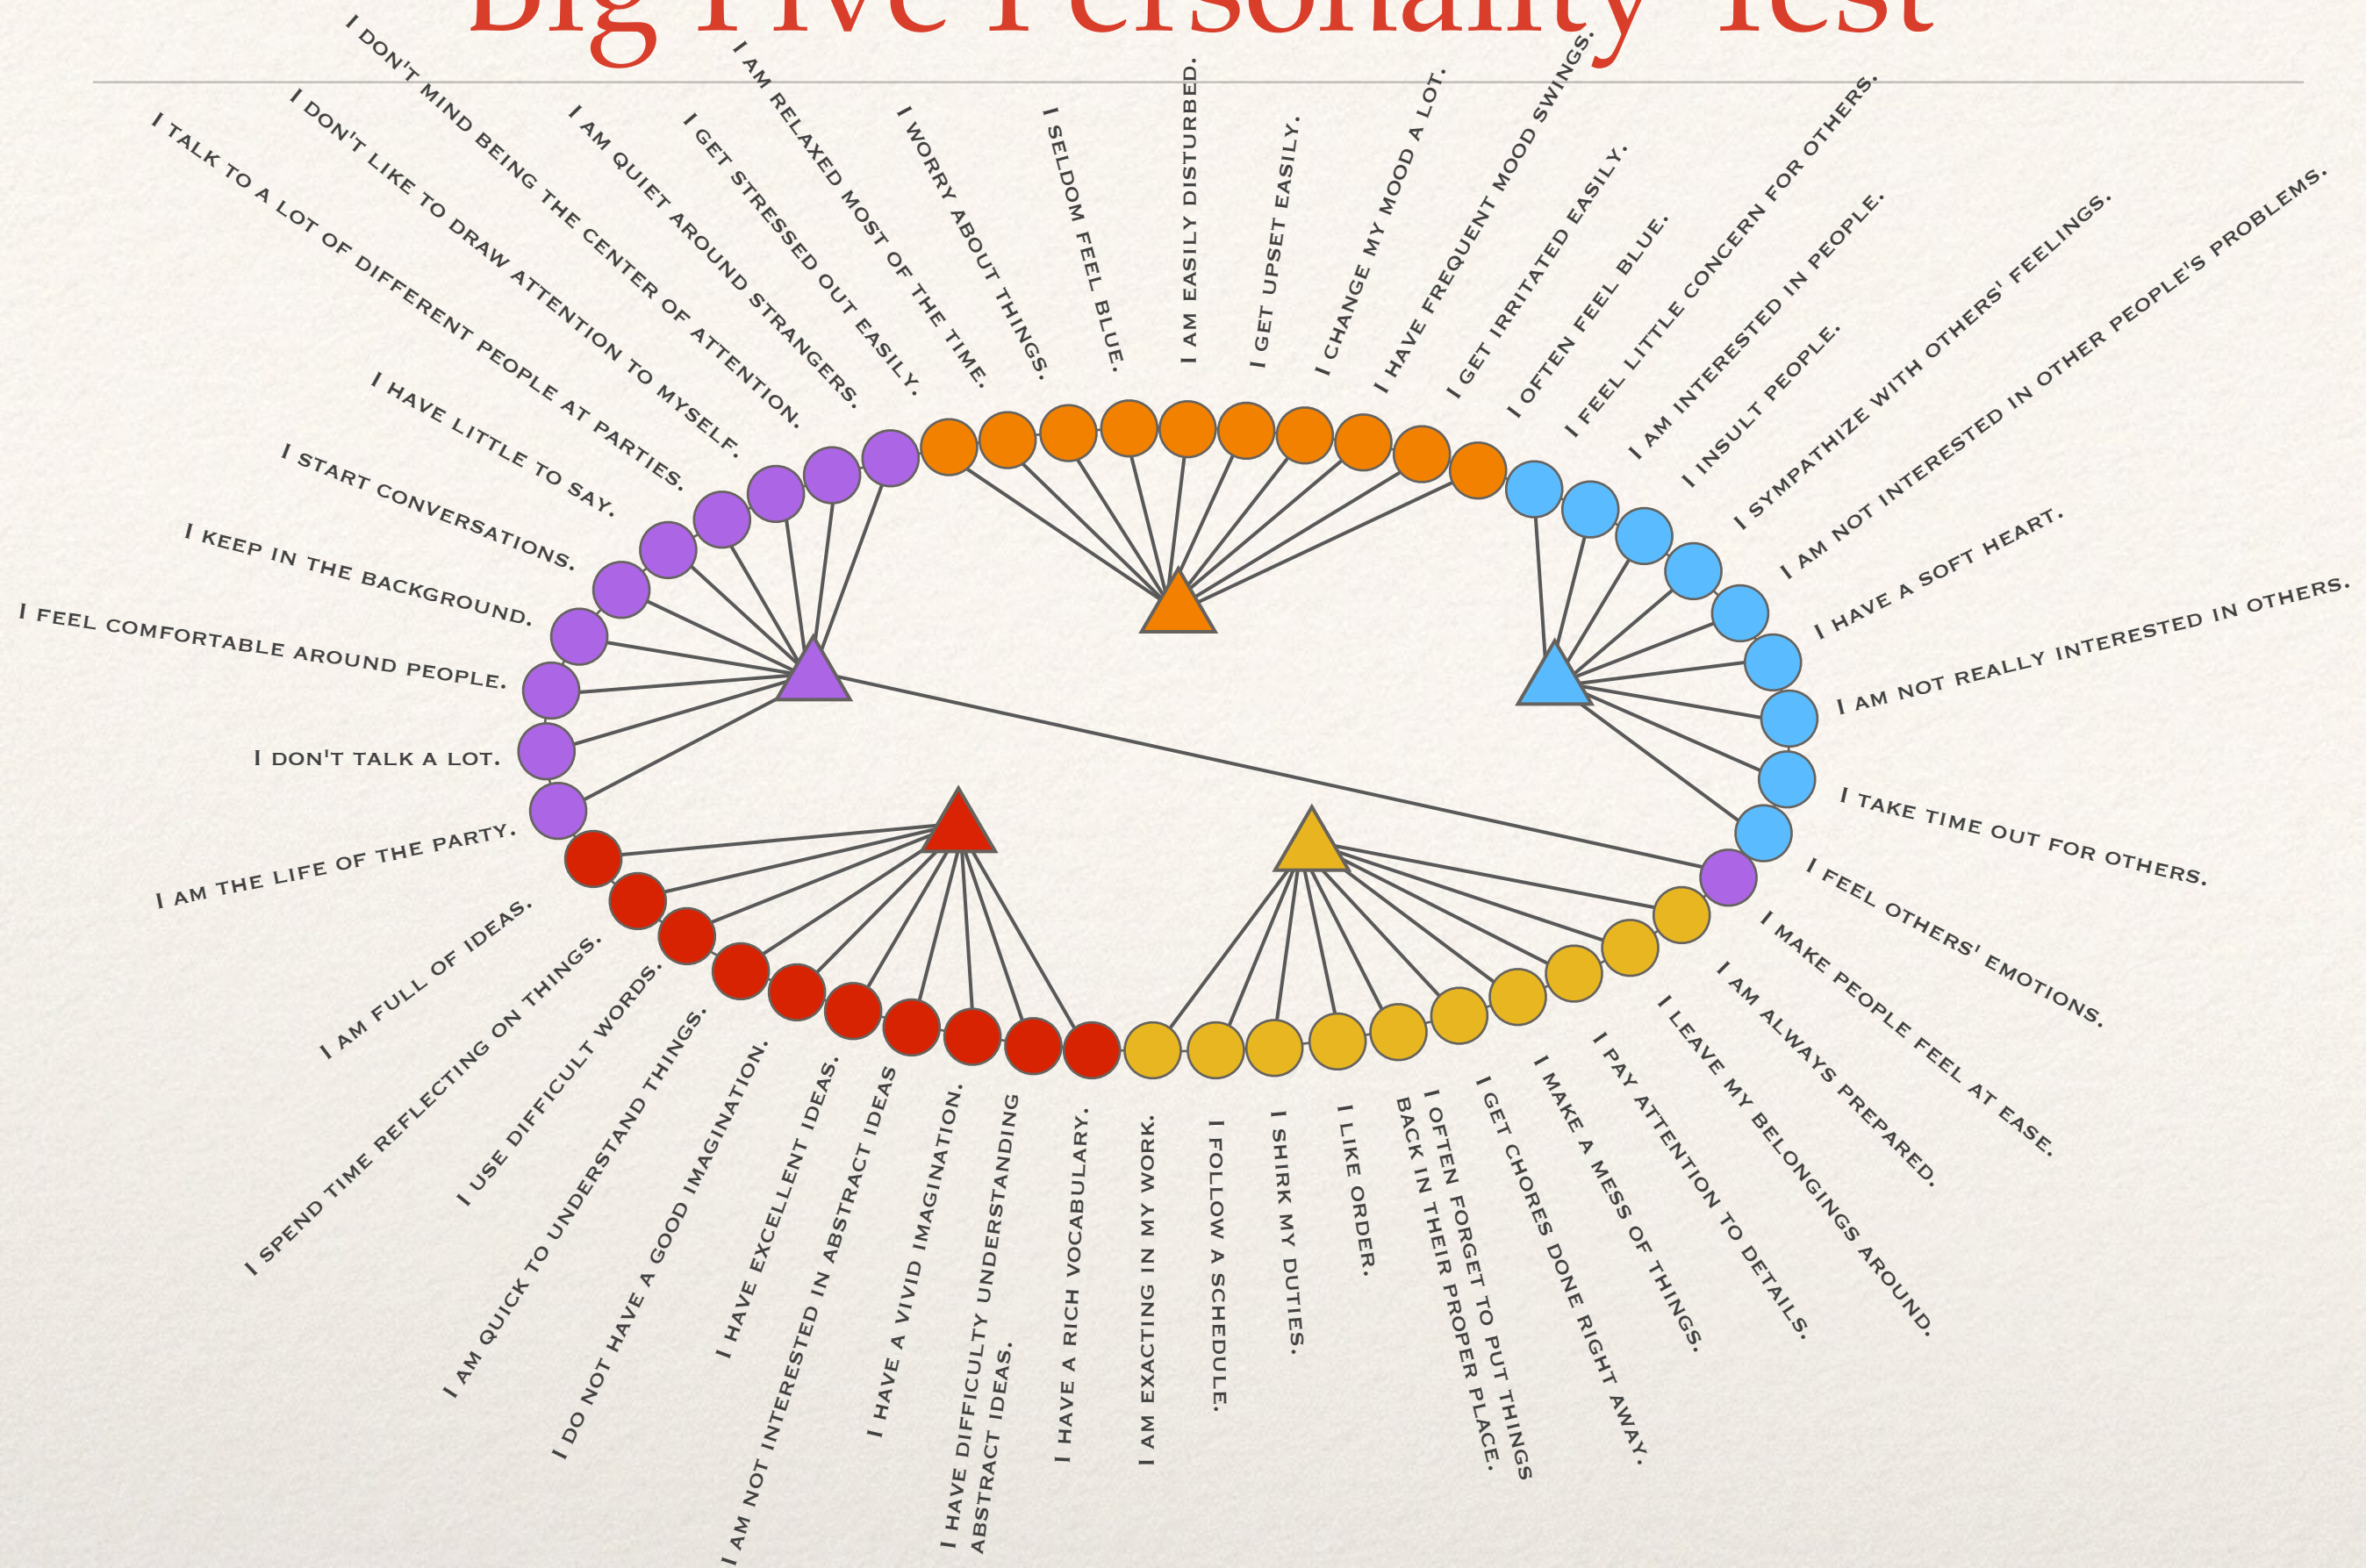

The personality test was constructed with the "Big-Five Factor Markers" from the IPIP.
